GLOBAL CTI

BUSINESS COMMUNICATIONS SOLUTIONS

CAPABILITIES

INNOVATION AT WORK

Global CTI is committed to achieving maximum return on investment for our clients through engineering, implementing, and maintaining the best and most appropriate communications solutions.

Our solutions are easy to manage, simple to use and they enable organizations of any size to seamlessly integrate all communications - voice, data, video, messaging - with their business processes. We accomplish this with a world class implementation approach that ensures success and includes ongoing support plans that align to your needs.

Having been in business over 30 years, Global CTI has physical offices in Bakersfield and Irvine, as well as virtual offices supporting sales, technical. and engineering resources throughout the state of California.
